

General

File Extensions not visible. wallet.dat file name shows as just "wallet" and/or ColossusXT.conf shows as just "ColossusXT"

Click the Start Button.

For Windows 7, type "Folder Options".

For Windows 10, type "File Explorer Options". Click the icon to launch. Click the View tab, then scroll down to "Hide extensions for known file types". Uncheck the box, and click OK.

Unique solution ID: #1020
