

General

How is funding being addressed?

Starting June 30th of 2018 the block reward is adjusted to 1500 COLX per block. The block reward distribution is as follows:

- 80% (1200 COLX per block) will go to users for Staking and Masternode rewards.
 - Split for 1200 colx is 60% for Masternodes (720 colx) vs. 40% Staking (480 colx)
 - 31.1 million colx per month are minted for masternode rewards (30 days = 43,200 blocks * 720 colx)
 - 20.7 million colx per month are minted for staking rewards (30 days = 43,200 blocks * 480 colx)
- 10% (150 COLX per Block) will go directly to the official Developer Fund Address (6.48 Million COLX per month):
DBKqofwU8QUFYFwNYZetyBbj2Y7oAcWLbX
- 10% (150 COLX per Block) will be used for governance/budget system (6.48 Million COLX per month. See more on <https://governance.colossusxt.io>)
- Transaction Fees will go directly to the official Developer Fund Address rather than being burned: DEKP7sVxwwuN1mtCpTXtjua77XqFBBRaKG
- If there are no proposals approved in the budget payment cycle, these funds will be routed to the official Developer Fund Address:
